

## **INSTITUTIONAL PLAN FOR NEXT 10 years (up to 2028)**

### **➤ Indoor Gymkhana**

The college has a sports centre on the third floor of the building. It provides table tennis, carrom and Gym. However, it is not sufficient to satisfy the needs of the entire college. The college has been appreciated for their performance in sports hence there is an independent indoor gymkhana which can provide badminton, table tennis, carrom and other indoor games along with well-equipped gymkhana.

### **➤ Digital and Airconditioned library**

Our library is very spacious and with a sufficient number of books. Use of IT will enable to improve the learning skill of students. Hence a provision of 10 computers with internet facility is made and required software has been installed. but it is essential to have complete digitalization along with Air conditioned facility in the entire library.

### **➤ Faculty Enrichment programs**

Faculty enrichment Programmes will be organized by inviting good resource persons from National level.. Beside this teachers will be encouraged to attend and present papers at seminars, conferences within and outside the state. Training programs for faculties will be conducted on learning Management system and advanced teaching Learning Process.

### **➤ Organization of national /International seminars**

The college plans to organize international seminars. At present college has so far conducted only two international seminars in physical education and other departments. This number needs to be increased. Hence the college plans to have more number of International Seminars.

### **➤ Certificate courses and skills-based courses**

A number of certificates and Skilled basis courses to be introduced. As the college is organizing certificate and Skilled base courses but this number is limited. Skilled based courses will be organized in association with the government organization and NGOs.

### **➤ Introduction of postgraduate courses**

- a) The college has BCom, BBA and BCA courses and the college need to start the Post Graduate courses. The college plans to start the MBA programme in future and also in commerce related subjects.

### **➤ Separate Teaching Block**

In order to start more UG courses the college needs to have a separate building which can accommodate the classrooms, staff room, Laboratories, etc. hence the college plans to have a separate Building which can accommodate more number of courses.

### **➤ Setting up of an Incubation centre**

Instead of being job seekers, the students need to be motivated to become job providers. Hence entrepreneurship qualities of students needs to be developed. In order to develop

the entrepreneurship qualities among the students, the college plans to have set up the incubation centre. At present, the college conduct various activities to create among the students about the entrepreneurship. The college also has an MOU with the CIBA.

#### ➤ **Setting up of training Centre**

Human resource is very important in any organization. The organization always employees. Hence the college plans to have the Training Centre where the training will be imparted to teachers of High Schools, higher Secondaries and colleges. So that the educational Institution will get good faculties through which the quality of education will be improved.

#### ➤ **Setting up of Research Centre**

Research is important for improving the quality of education. Teachers are encouraged to write papers, publications, and registering for the PhD program. The college plans to have independent research centre in commerce and economics.

##### ➤ **Establishment of research laboratory –**

In order to develop and encourage the faculty and students to develop the spirit of research the college plans to establish a well-equipped research laboratory'

##### ➤ **Industry-academic linkages**

As there is a mismatch between industry and academia. The college promotes this between industry and academic by inviting people from industry to deliver talks on a regular basis, the organization of seminars, internships, industry visit

##### ➤ **Career placement (career placement fair)**

the college plans to organize career placement fair, campus recruitments, career guidance talks, seminars etc towards the end of each year.

##### **Intensifying extension activities-**

this is being done through the organization of Medical camps in villages, Community talks in collaboration with NGO'S etc.

- **Development of Playground** — Good ground improves the performance of sports games, therefore, the college plans to provide grass on the football and providing seating capacity to around 500 students.

#### **Construction of separate block for Postgraduate Courses**

Growth and development is a natural process. the college plans to start at least one postgraduate course in the immediate future as there has been a positive growth and expansion of the college.

##### ➤ **Air condition in Bcom Classrooms**

The college plans to install Air condition in all Bcom classrooms in Phase manner. This will help to create conducive environment in teaching and learning Process.

➤ **Separate Canteen Block**

At present the canteen is started on the top floor since there was no space. hence the college plans to have the separate Block for the canteen in the new building.

➤ **Smart classrooms**

In order to improve the teaching and learning Process the college plans to have full ICT enabled classrooms .
