

# Introduction

Maestro is an Italian word used to designate a "Master" in an artistic field usually a highly skilled individual who instructs others in field. In recent years Information Technology has become an art in itself. IT Maestro is the event that provide Higher Secondary of Goa with platform to enhance their skills. We the students of Saraswat BCA have engineered an Online event where students from all over Goa can provide their abilities, skills and also develop their rational, logical, coherent and artistic thinking capabilities. IT Mastro 9.0 is the first state level virtual IT event organized for the students of Higher Secondary Schools in Goa. In these trying times, IT Maestro 9.0 has been adapted to a Fest-from-home format, bringing the same excitement to you online by demonstrating the remarkable range of interests being pursued in and beyond the classroom Even in these times of COVID, we are making sure to keep our legacy by hosting events on a digital platform for all of you techies to showcase your competent skills over our mind boggling events, laid out for you over this 1 day event.
