## **Saraswat Education Society's Sridora Caculo college of Commerce and Management Studies**

### **Activities:**

#### **FOUNDATION DAY 2<sup>ND</sup> MARCH 2023**

Saraswat Vidyalaya celebrated their 112th foundation day of the school on the 2nd of March 2023. Every year this occasion is celebrated by organizing a prabhat feri involving many students and teachers of Saraswat Vidyalaya undertaking an early morning procession.

The Prabhat feri was followed by assembly program on the school grounds. The management gave mementos to the students who held the honour of representing Goa at national level in the field of sports. The Chairman of Saraswat Education society formally informed everyone about inauguration of the Caculo college Library for the use of all teachers and students of the Saraswat Education Society. All members of the community can also avail this facility between 4 pm & 7 pm.

### **Five Days National Level Research Methodology Workshop on Quantitative Techniques in Social Sciences:**

The Internal Quality Assurance Cell (IQAC) of the SES's Sridora Caculo College of Commerce and Management Studies, Khorlim, Mapusa, Goa in association with Goa Institute of Public Administration and Rural Development (GIPARD), Ella Farm, Goa organized a Five Days National Level Research Methodology Workshop on Quantitative

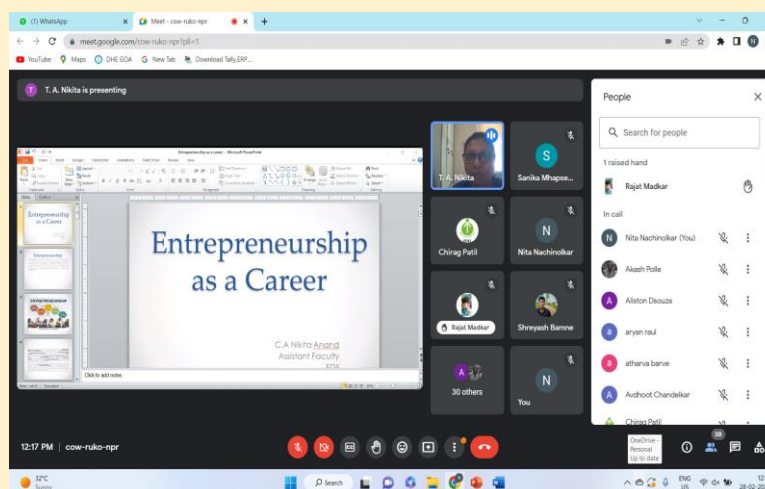

Techniques in Social Sciences from 20th to 24th February, 2023 at GIPARD campus. The resource persons were Dr. M Tapaswi, Dr. Bhavesh Vanpariya and Dr. Sreerupa Sengupta. This was the second major activity for the current academic year under the MoU which the college has signed with GIPARD.

Miss Sanidhi won 3<sup>rd</sup> place in Hammer Throw at State Level Athletic Meet.

Master Laxman Shetgaonkar won Gold Medal in u19 Discuss Throw at State Level Athletic Meet.

Our boys team won bronze Medal in 400 mtr relay at State Level Athletic Meet.

Miss Nitu Oli bagged silver Medal in 400 mtrs hurdles at State Athletic Meet.

## Saraswat Vidyalaya Primary School

Twenty one students from STD III participated in "Petul" - a dance programme, organised by Konkani Bhasha Mandal on 28/02/2023, Tuesday at Shri Bodeshwar Hall, Mapusa. The in-charge teachers for this performance were Mrs. Anagha Atul Apte and Ms. Poorva Chintamani Kelkar. Students and teachers were awarded with certificates and a memento.

शनिवार दिनांक ११ फेब्रुवारी, २०२३ रोजी म्हापसा येथे श्री गणेश विद्यामंदिर आयोजित या आंतरशालेय स्पर्धेमध्ये सारस्वत विद्यालयाला उपविजेतेपद प्राप्त झाले. यामध्ये सारस्वत विद्यालयातील प्राथमिक व माध्यमिक विभागातील शिक्षक, विद्यार्थी व पालक वेगवेगळ्या स्पर्धामध्ये सहभागी झाले होते.

## शिवजयंती:

दिनांक - २० फेब्रुवारी २०२३ रोजी खोर्ली म्हापसा येथील सारस्वत विद्यालय प्राथमिक विभागातर्फे शिवजयंती साजरी करण्यात आली. इयत्ता पहिली ते चौथीतील काही निवडक विद्यार्थ्यांची छत्रपती शिवाजी महाराज जिजामाता आणि शिवकालीन मावळ्यांच्या वेशभूषेत शाळेच्या आवारात शिवरायांच्या जयघोषात फेरी काढण्यात आली .

दिनांक २५ फेब्रुवारी २०२३ रोजी म्हापश्यातील सारस्वत विद्यालय प्राथमिक विभागाच्या पालक शिक्षक संघातर्फे गणित विषयाच्या शिक्षकांसाठी 'खेळण्यांवर आधारित अध्यापनशास्त्र' ह्या कार्यशाळेचे आयोजन करण्यात आले होते. या कार्यशाळेला प्रमुख पाहुणे , वक्ते आणि मार्गदर्शक म्हणून नवोदय विद्यालय काणकोण येथील शिक्षक श्री बेनी वर्गीस उपस्थित होते. श्री. बेनी वर्गीस यांना त्यांच्या 'आनंददायी शिक्षणासाठी खेळण्यांवर आधारित अध्यापनशास्त्र' ह्या प्रकल्पासाठी, आंतरराष्ट्रीय शिक्षकांसाठीचा युनायटेड स्टेट्स ऑफ अमेरिका फुलब्राईट विशिष्ट पुरस्काराने सन्मानित करण्यात आले आहे.

## **SARASWAT VIDYALAYA SCHOOL EXHIBITION 1<sup>ST</sup> MARCH 2023.**

Saraswat Vidyalaya had organised their school exhibition on 1st March 2023. Students participated by submitting exhibits in the field of art, science, environment, languages, theatre art, history, embroidery, etc. Projects made by the school students were also kept on display with some that had won accolades in inter-school events, being explained by the students to everyone visiting. Attempts were made to explain seemingly complex Mathematical concepts by students using simple teaching aids.

Art exhibits also included those that were so innocently and carefully made by the tiny tots of the primary and pre-primary section of students; these were spread in 3 classrooms. Primary students had setup stalls for refreshments which had tasty treats like shev puri, corn chat, sandwiches and others. All visitors were also given the opportunity to participate in the various games on display in booths put up by the PTA members of primary section.

### **News Corner:**

#### **Progress in Web3:**

Blockchain technology will also advance significantly in 2023 as companies create more decentralized products and services. For example, at the moment, we're storing everything in the cloud — but if we decentralize data storage and encrypt that data using

blockchain, our information will not only be safer, but we'll have innovative ways to access and analyze it.

Non-fungible tokens (NFTs) will become more usable and practical in the new year. For example, NFT tickets to concerts will potentially give you access to backstage experiences and memorabilia. NFTs might be the keys we use to interact with many of the digital products and services we buy, or they could represent contracts we enter into with other parties.

### **The Top 10 Limitations of ChatGPT :**

As an AI language model, ChatGPT is capable of performing a variety of tasks like language translation, writing songs, answering research questions, and even generating computer code. With its impressive abilities, ChatGPT has quickly become a popular tool for various applications, from chatbots to content creation.

But despite its advanced capabilities, ChatGPT is not without limitations. As with any AI technology, ChatGPT has certain weaknesses and challenges that can impact its performance and accuracy.

**1.Lack of common sense:** While ChatGPT can generate human-like responses and has access to a large amount of information, it does not possess human-level common sense — and the model also lacks the background knowledge we have. This means that ChatGPT may sometimes provide nonsensical or inaccurate responses to certain questions or situations.

**2.Lack of emotional intelligence:** While ChatGPT can generate responses that seem empathetic, it does not possess true emotional intelligence. It cannot detect subtle emotional cues or respond appropriately to complex emotional situations.

**Limitations in understanding context:** ChatGPT has difficulty understanding context, especially sarcasm and humor. While ChatGPT is proficient in language processing, it can struggle to grasp the subtle nuances of human communication. For example, if a user were to use sarcasm or humor in their message, ChatGPT may fail to pick up on the intended meaning and instead provide a response that is inappropriate or irrelevant.

**3. Limitations in understanding context:** ChatGPT has difficulty understanding context, especially sarcasm and humor. While ChatGPT is proficient in language processing, it can struggle to grasp the subtle nuances of human communication. For example, if a user were to use sarcasm or humor in their message, ChatGPT may fail to pick up on the intended meaning and instead provide a response that is inappropriate or irrelevant.

**4. Trouble generating long-form, structured content:** ChatGPT is currently best suited for generating shorter pieces of content like summaries, bullet points, or brief explanations.

**5. Limitations in handling multiple tasks at the same time:** If you ask ChatGPT to perform multiple tasks at once, it will struggle to prioritize them, which will lead to a decrease in effectiveness and accuracy.

**6. Potentially biased responses:** ChatGPT is trained on a large set of text data — and that data may contain biases or prejudices. This means the AI may sometimes generate responses that are unintentionally biased or discriminatory.

**7. Limited knowledge:** Although ChatGPT has access to a large amount of information, it is not able to access all of the knowledge that humans have. It may not be able to answer questions about very specific or niche topics, and it may not be aware of recent developments or changes in certain fields.

**8. Accuracy problems or grammatical issues:** ChatGPT's sensitivity to typos, grammatical errors, and misspellings is limited at the moment. The model may also produce responses that are technically correct but may not be entirely accurate in terms of context or relevance. This limitation can be particularly challenging when processing complex or specialized information, where accuracy and precision are crucial. You should always take steps to verify the information ChatGPT generates.

**9. Need for fine-tuning:** If you need to use ChatGPT for very specific use cases, you may need to fine-tune the model to get what you need.

**10. Computational costs and power:** ChatGPT is a highly complex and sophisticated AI language model that requires substantial computational resources to operate

efficiently — which means running the model can be expensive and may require access to specialized hardware and software systems.

### **Old Or New Tax Regime: Which Is Better?**

Several changes were made to the new income-tax regime in Budget 2023. The old income-tax regime was not tinkered with and is still available. Should taxpayers opt for the revamped version of the new tax regime or stick to the old one?

Maneet Pal Singh, partner, I.P. Pasricha & Co., says, "The new tax regime offers flexibility to taxpayers to invest their money as they prefer, as there is no mandatory requirement to invest in tax-saving schemes."

The new tax regime did not find many takers, and hence was revamped in Budget 2023. Slab rates have been reduced.

The basic exemption limit has been increased from Rs 2.5 lakh to Rs 3 lakh. A rebate under Section 87A has been introduced due to which individuals having taxable income up to Rs 7 lakh don't have to pay any tax. A standard deduction of Rs 50,000 has been made available, which will result in overall savings of Rs 52,500 in tax outgo for a salaried person with income of Rs 15.5 lakh.

### **Which of the two regimes is better?**

The answer is: It depends.

While the changes announced in the Budget definitely make the new tax regime more attractive than its previous avatar, it may not necessarily suit everyone. Those who have a smaller income and don't avail of many deductions and exemptions will find the new tax regime more attractive. Suresh Surana, founder, RSM India says, "On the other hand, an individual who claims deduction on interest paid on a housing loan and avails of other deductions such as Section 80C (life insurance premium, five-year fixed deposit, principal on housing loan, Employee Provident Fund, etc) and 80D (health insurance premium) may still prefer to continue with the old regime."

## EDITORIAL

This issue of **SARASWAT** is a humble attempt at filling the void that has been created by the absence of student-run newsletters in most colleges.

While this issue has largely been born out of the Library, we are open to submissions from all students, Teachers and well wishers.

We hope that subsequent issues will strike up numerous discussions and bring students of various departments closer.

Please email your articles, stories, poems, events, creative ideas, and advertisements to [newsletter@caculocollege.ac.in](mailto:newsletter@caculocollege.ac.in). We request you to restrict longer articles to 350-400 words. In case you have any comments or queries related to this issue, please email them to us. Hope to hear from you!
